# WHY SIGN ELECTRONICALLY?

In many business processes, documents have to be signed. But the digital process chain usually ends at the signature.

With inSign, it is no longer necessary to print out documents in order to sign them. The inSign process enables a completely paperless process including electronic signatures.

The signer is given secure online access to sign the documents. If necessary, additional documents and photos can be added to the process.

## THEREFORE SIGN WITH INSIGN!

### Extensive functions

- ✓ Audit report
- ✓ Form-Editor
- ✓ Serial processes
- ✓ Text blocks (SIG tags)
- ✓ Delegate processes
- ✓ Approval processes
